

New for 2019: IACAC has switched from GoToCollegeFairs to StriveScan

IACAC is pleased to announce we will be bringing StriveScan to all of the college fairs on the IACAC Annual College Fair Schedule starting this fall. We have switched from GoToCollegeFairs and partnered with StriveScan to bring improved technology to our fairs. This will make the experience more efficient and productive for students and colleges, plus provide IACAC and the fair hosts with valuable data about the events.

StriveScan is used at college fairs around the country, including by other NACAC affiliates including Illinois, Missouri, New England, New Jersey, Pennsylvania, Great Plains, Rocky Mountain, Pacific Northwest, Western, and Hawaii ACACs, plus the National Hispanic College Fairs, the Colleges That Change Lives, Council of International Schools, and Linden Tours. More than 2,000 colleges have used StriveScan at hundreds of college fairs around the country and in 51 different countries.

How It Works

College reps will need to create a StriveScan account and download the mobile app to scan.

What It Costs for Colleges

Once you StriveScan account, colleges purchase Fair Credits for \$24 each through StriveScan's website or app. One credit unlocks scanning one fair. The cost includes unlimited scans, instant data exports, and no additional charge for multiple representatives. Credits can be used at any StriveScan fair around the country and do not expire.

How Do Colleges Sign Up?
